Response to Amendment

This Office Action is in response to Amendment filed on 10/27/2003.

Claims 13-27 and 29-44 are presented for examination.

Claim Rejections - 35 U.S.C. § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 13-27 and 29-44 are rejected under 35 U. S. C. § 102 (b) as being anticipated by Applicant Admitted Prior Art (AAPA).

Claims 13-27 and 29-44 are rejected for the same reason as set forth in the previous Office Action dated 08/22/03.

Response to Arguments

Applicant 's comments stated that Dawson et al. (U.S. 5,621,615) neither teaches nor suggests his die is a thinned die. However, examiner notes that on column 6, lines 61, Dawson states that 'a die attach thickness in the range of 1.0 mil + - 60% provides for good thermal conductance for chips dissipating heat...'. Also, 1 mil = 25.54 μ m. In claim 16, applicant stated that the die has a thickness of no more than 100 μ m.

Therefore, for the above reason, it is believed that the rejection should be sustained. Feature of an invention not found in the claims can be given no patentable weight in distinguishing the claimed invention over the prior art.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
